

"we all thought he was brilliant,  
his organisational approach  
helped us enjoy our day,  
and the fact that he seemed to  
be enjoying the day as much as us"  
*John & Sheila Crocker*

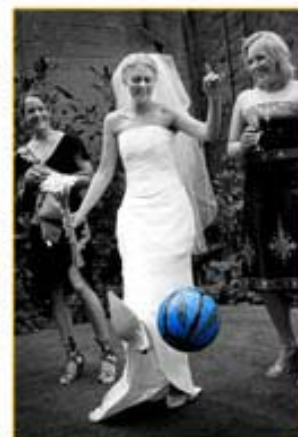

I am a young vibrant photographer with over 10 years in the profession and 5 years photographic training. In this time I have covered well over 500 weddings in the midlands best venues.

Using my experience I will help to create a relaxed and informal setting both in the photographs taken and more importantly on the day itself. I am adaptable friendly, and will always remember it is YOUR wedding.

My aim is to work with you and help you get the best out of your day rather than take it over. To do this I will listen to your requirements, then use my logic, experience and personality to build a memorable day. Then photographs that reflect the true feeling of your wedding in a creative way
